

Dan Johnson  
Web Designer//Developer

Dan Johnson has been a web designer/developer since 1996. Armed with a degree in Physics and an artistic eye, Dan has used his unique blend of talents to deliver **Information Design** to his clients. Dan co-founded Eclectic Studios, Inc. in 1997 and more recently began his own development company, version2, llc. Throughout his career he has worn a variety of hats including designer, programmer, IT guy, consultant, client wrangler, presenter, project manager, visionary and janitor.

## OBJECTIVE

Secure employment in a friendly cooperative environment with a team atmosphere where people genuinely want to create great and useful things. Willing to relocate to Hawaii.

## SKILLS

HTML, CSS, Mobile Web, Cold Fusion, Classic ASP (Yes Really), MySQL, Photoshop, Illustrator, Dreamweaver, etc., General Web Plumbing (DNS etc.), Working with clients, Logo design, JavaScript, jQuery, PHP, Wordpress, Drupal

## BACKGROUND

1996 / Miami University / BS Engineering Physics  
1997-2012 / Eclectic Studios, Inc. / Co-Founder/Web Developer  
2012-2013 / the idea house / Director of Digital Design  
2012-Present / Owner version2, LLC

## EXPERIENCE HIGHLIGHTS

2006-Present / Create web management system for YMCAs from scratch using ColdFusion and MySQL. Maintained and improved through present. Currently used by 500 users at more than 50 branches. The system serves approx. one million pages every month.

### Technical Achievements:

- 2007 / Developed CSS technique for image-rollovers that preserves text links. No JavaScript.
- 2010 / Mobile version with reprioritized nav uses custom mobile-detection script.
- 2011 / Replaced text-images with fonts and corners/background images with CSS.
- 2013 / Created blog feature from scratch to create, edit, and manage posts.

2013 / Launch responsive site with client updateable slide shows – No coding, no CMS.

2012 / Developed in-office patient survey on an android tablet for a medical practice.

2009 / Leveraged multiple Blogger accounts to create a cheap, custom CMS for a bike shop.

2004 & 2005 / Named one of Cincinnati's Who's Who in Technology by the Business Courier.

2002 / Presented information drill-down prototype to major industry players including Microsoft, Yahoo!, AskJeeves.com, infoSpace, LookSmart and a dozen other search engine companies.
